

THE DAILY BULLETIN.

WEDNESDAY EVE., JULY 25, 1883.

ROSSER & McCARTHY,
Publishers and Proprietors,
To WHOM ADDRESS ALL COMMUNICATIONS.

TEACH your sons some useful trade
And you are sure to find,
That when they make the race for bread
They're never left behind.
And if you fail to give the boys
Some earnest work to do,
The bad results of after life
Must be marked down to you.

New wheat sold at one dollar a bushel in this city Tuesday.

Dr. G. W. MARTIN has sold his crop of new wheat, consisting of about three hundred bushels, to John N. Thomas & Co. The price paid was \$1 a bushel.

We were shown recently a sample of the "White Star," a new variety of potatoes, grown by Mr. Thos. Nolin, near this city. They are a fine potato and very prolific.

It is estimated that 7,000 people attended the High Bridge Camp Meeting last Sunday. Rev. T. DeWitt Talmage is expected to preach next Saturday and Sunday, the 29th and 30th insts.

FAUCIER, VA., claims to have the boss apple tree in this country. It is said that seventy-five bushels of apples were grown on it one season, and that a forty-gallon barrel of brandy was made from one season's bearing.

The Rev. T. DeWitt Talmage is expected to preach at the Deering Camp Meeting August 7th and 8th. A lecture in this city by this talented preacher would certainly draw an immense audience. Why can't we have the lecture? "A word to the wise is sufficient."

The Rev. J. W. Asbury, colored, nominee of the Republican party for Superintendent of public instruction, failed to appear at the Court House last night. A large crowd had assembled to hear this colored orator's speech, but they had to content themselves with Gen. Fry's harangue.

Mr. Thos. NOLIN, of this city will have charge of the dining hall at the Deering Camp Grounds during the approaching meeting. Several necessary improvements have been made on the building since the last meeting. The regular rates for board during the meeting will be \$5.00 per week.

The United States Electric Light Company will place a marine light over the Fourth street entrance of the Exposition Building in Louisville. The same company is also laying the rails for the electric railway that is to run about the park. The cars and engine have arrived and have been unpacked. It is the company Mr. Salomon represents.

Those who are so unfortunate as to be troubled with a bone-felon, should try the following treatment, which the London Lancet recommends: "As soon as the felon is felt, put directly over the spot a fly blister, the size of one's thumb nail. Let it remain for six hours, at the expiration of which time directly under the surface of the blister may be seen the felon, which can easily be removed with the point of a needle.

Death of Capt. John M. Pickett.

Intelligence was received this morning of the death, after a long illness, of Capt. John M. Pickett, at Joplin, Mo. Captain Pickett was a native of this county, having left here just before the beginning of the late war, through which he served as a gallant adherent of the "lost cause." He will be pleasantly remembered by his old friends in Kentucky for his manly character, his generous disposition and the fine qualities of wit and humor, which made him the charm of every circle. The announcement of his death in the very prime of life will be received by those who knew him with feelings of sincere regret.

The speaking last night at the court house by Gen. Speed Fry, candidate, on the Republican ticket for Lieutenant Governor, was made up, as usual, of a tirade against the Democratic party and its alleged mismanagement of the State Government, with some idle twaddle on the tariff, and the great and everlasting good the Republican party has done for the people of the country, thrown in. A considerable crowd was in attendance, but we venture the assertion that nine-tenths of them were there to hear what the Rev. J. W. Asbury had to say in behalf of the "grand old party." In this, however, they were disappointed, as General Fry, after closing a two hour's harangue, announced that the Reverend gentlemen, of color, had failed to make connection, and was, therefore, not present. General Fry, by his speech, showed that he is a bigoted partisan, and his statements ought, therefore, to be received with a "grain of allowance." In the words of one of his political friends, the General "is not much of a speaker."

Newport, Maysville and Big Sandy Railroad.

No doubt many people in this city and county entertain the idea at present that Gen. C. P. Huntington has given up all intentions, if he ever had any, of building the above railroad. It is only on very rare occasions that anything is ever seen in print now, on the subject. Notwithstanding the above, the truth of the matter is that the work of construction is slowly but steadily progressing. The company has had a small force of laborers—between fifty and one hundred—engaged for more than a year in making an extensive cut and large fill on either side of the mouth of Lawrence Creek. These are about finished, and the work of grading is being carried out in both directions from the above point. In addition to this a small force of men are at work near Augusta, Bracken county. Col. C. B. Child, chief engineer of the road, has lately received instructions from Gen. Huntington to finish securing the rights of way at an early day as possible. Application was therefore made at the last term of the County Court, by the company, in accordance with the law on the subject, for the appointment of three commissioners to assess damages to several pieces of property along the route between this city and the western limits of the county. In answer to this application, the Judge appointed Messrs. John T. Wilson, Charles A. Marshall, and another gentleman, whose name we have forgotten, commissioners, who are now engaged assessing damages to those pieces of property along the above route in this county, where the company has failed to secure the right of way, without resort to law. Col. C. B. Child, chief engineer, recently stated, in a conversation on the subject, that he might receive in any mail, instructions from General Huntington, to put 4,000 or 5,000 men at work on the road. We would be willing to hear this item of news any day, and we hope it will not be long ere the news is received.

Public Rehearsal.

The Orpheus Choral Society, of Aberdeen, will give a public rehearsal on next Monday evening, July 30th, at the M. E. Church, in the above place, which all are cordially invited to attend. This is the first entertainment given by the Orpheus Society, and something good in the way of music will be furnished on this occasion.

ABERDEEN ITEMS.

That pleasing young lady, who is visiting the Misses Lord, has won many friends during her visit here.
The Misses Wheeler are again on the wing, pursuing it somewhere, just where has escaped our memory.
There is more fashion in the city and styles in the country but the country styles are too wearisome to behold.
Riverside Cottage is again vacant, as Mrs. Ed. Fulton has moved from this town to Chillicothe, which will be her future home.
That long talked of concert must surely be on the wane, and yet there is a great deal of practicing going on. Confidence must be lacking.
The work on Second street bridge is pro-

gressing rapidly. It will soon be ready for travel, much to the gratification of the people in that locality.

Last Saturday evening Miss Orva Waldron gave a party in honor of her guest, Miss Dora Mockbee, of Ripley, O. Quite an assembly of little girls of the town attended. As to their dress and manners they quivered with their elder sisters.

The blackberry crop must be superabundant, judging by the crowds of men, women and children, with their buckets, cups and baskets, meandering over the region where the blackberries grow. Judging from their appearance on their return they seem to have had a jolly good time.

Mrs. K— was poor but genteel, but she had a weakness for boasting at the expense of truth. Her little Freddy was always exposing this weakness of hers by his candid remarks. "Why, mamma," he said, "I wish we could have company every day for dinner then we would have ice on the water. I can't bear easy butter that runs off of the knife."

We think there are some people who are not capable of appreciating a good servant. Mrs. B—, who has a green Irish girl, called to her and receiving no reply, sent for her to come up stairs. "Bridget, didn't you hear me call? Bridget? Yes, mum, but you told me never to answer ye back and I didn't. Well, you pack your trunk and leave immediately. You are too green for a city servant. Green pastures is the place for you."

We frankly acknowledge that the ubiquitous correspondent of the BULLETIN, who hails from Shannon, Sardis, and elsewhere, is a victor in his last reply to us. But then in regard to writing from different points we are not so sure of our own superiority as he is in that particular. P. E. M.
